

Call for Papers
Autumn Meeting 2005
"Access & Identity Management"
November 30th, 2005 at HP Ueberlandstr. 1, 8600 Dübendorf

HP-Interex.CH, the HP User's Organization, have long arranged user meetings in order to enable its members and HP to exchange their experiences. Such a meeting stands and falls on the contributions of its members. We are therefore calling all system administrators, developers and project managers to present interesting aspects of their daily work.

The areas of interest for the meeting are:

- Public Key Infrastructure
- User Management
- LDAP, Radius, Single Sign On

This one-day event will consist of one stream of one-hour presentations. Sufficient breaks will also be planned to enable discussions between the participants.

In order to permit us to begin the detailed planning, we require the following information concerning your presentation:

a fitting title

an abstract of less than 150 words

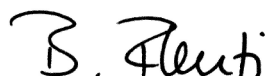

an inventory of the infrastructure required for the presentation / demonstration

a biography of the author in less than 150 words

The presentations can be made in English, German or French. They will later be published on the User Group Internet site in a suitable form.

We are looking forward to receiving many entries. Please send details to the HP-Interex.CH office. Deadline for the receipt of the presentation title and abstract is October 18th, 2005.

Kind regards

A handwritten signature in black ink that reads 'B. Fleuti'.

Bernhard Fleuti
Chairman HP-Interex.CH
